I would suggest looking for used/new copies online before buying at the bookstore to compare prices. Also, the best strategy for doing well in class and understanding the material is to read the corresponding textbook chapters before class. I follow the book topics fairly closely but will add a few additional things as I see fit.

Course Description

Microeconomics is a branch of economics that studies how individuals, households, and firms make decisions to allocate limited resources, typically in markets where goods or services are being bought and sold. We will examine how these decisions and behaviors affect the supply and demand for goods and services, which determines prices and how prices, in turn, determine the supply and demand of goods and

Examinations

The exams will take place during regular class time in the regular class room on the dates listed below. They will be a combination of multiple-choice questions and short answer questions. You'll probably also want to bring a calculator (*no cell phone calculators or any calculators capable of storing information i.e. graphing calculators*). Exam questions will be based on material covered in lecture and the problem sets. I'll talk more about each exam as the exam date approaches.

Make-ups for any exam are allowed only under compelling circumstances. Under such a compelling circumstance, you are almost always required to make *prior arrangements* before the exam. A make-up exam will be administered prior to the actual exam date. And no late exam will be provided past the exam date.

Note: If you have 3 or more final exams on the same day and econ 3070-007 is your last final exam scheduled on that day, you are entitled to arrange an alternative exam time. To reschedule your final exam
